Good Evening:

I wanted to send you the most recent Pollution Report for the Site and give you an update. All is going well. We finished excavating the majority of the interior office building of GNBC. We need to survey the office area and then perform our post excavation sampling. If all goes well those samples will go out before we leave this Thursday. We are starting to clear trees in Area 5 (western wooded area between the hotel and bowling alley parking lot) in order to excavate.

I hope your summer is going well. Thanks

Attached is a Pollution Report (POLREP) regarding:

USEPA Region II  
Niagara Falls Boulevard Radiological Site  
9524-9540 Niagara Falls Boulevard, Niagara Falls, NY

To view this POLREP, please open the attachment.
